

NUNDYDROOG DIVISION.

NOTIFICATION.

The 19th September 1874.

Krishnaiengar, Permanent Mestri of the Magadi Taluk, is granted 15 days' privilege leave from the 8th instant.

J. L. PEARSE,
Commissioner.

BANGALORE DISTRICT.

NOTIFICATION.

The 15th September 1874.

Under instructions from Government, the Deputy Commissioner, Bangalore District, notifies for the information of the Muhammadan community that intimation has been received through the Government of India of a disease resembling the Plague having broken out at Mecca. Intending pilgrims are warned against proceeding to that place until notice of the cessation of the epidemic has been received.

T. CLARKE,
Dy. Commr.

NAGAR DIVISION.

NOTIFICATIONS.

The 29th August 1874.

The 18th September 1874.

V. Sripati Rao, Maramat Clerk, Kadur Deputy Commissioner's Office, on probation, is confirmed in his appointment.

T. CLERK,
Commr.

Season Report of the Kadur District for the month of August 1874.

653

Other.—The rain-fall during this being lighter than in the previous month it was very beneficial for the growth of the crops, and of much aid to the cultivators, affording a relief from incessant rain.

The following table furnishes the readings of the thermometer and rain-fall as recorded at the Observatory at District head-quarters for this and the previous month as contrasted with the month of August last year.

July—1874	Thermometer at 9·30 A. M.	70·20,	at 3·30 P. M.	70·20,	Rain,	8 inches 1 cent.
August "	"	72·24,	"	74·3,	1 "	99 cents.
" 1873	"	75·16,	"	73·4,	2 "	18½ "

Crops.—In the Maidan taluks, the "Hingar crops" sown in the previous month as also at the commencement of the monsoons are in a satisfactory and thriving condition, and some crops such as gidrugi, coriander, &c., are being harvested. In localities where heavy fall of rain rendered the cultivation altogether impossible in the previous month, the transplanting of paddy and sugar-cane is being carried out in this month. The growth of cardamoms, sugar-cane and coffee is satisfactory. The rot called "Koleroga" on supari still continues to rage in the gardens of the Koppa Taluk.

Health.—The health of the District has not been on the whole very good. Fever existed to some extent in Banavar, and small-pox in the Taluks of Chikmagalur, Vastara, Kadur and Tarikere to a small extent. The total deaths from small-pox in this amount to 6, against 11 in the previous month, and the total of deaths from all causes is set down at 319, against 320 in the preceding month and 340 in August 1873.

Cattle.—Murrain of the *kalyara* "*bayivara*" types continues in the Vastara Taluk. The loss from the attacks of wild beasts is set down at 145 throughout the District, against 101 in July 1874. The total mortality from all causes amongst cattle amounts to 1,244, against 2,205 in last month and 1,571 in August 1873.

P. KRISHNA RAO,
Offg. Dy. Commr.
